f. **Flagged Segments & Warnings** [explain]

| 00:00:00 | - | Video frame rate lowered due to quality of Internet connection |
| 00:03:27 | (33 sec) | MISSING |

a. The box on the top lists the student's name, when they took the exam, the perecnt of time their face was detected for analysis, how many times Respondus flagged the test, and the total flagged time.

b. The bars here display in minutes the duration of the exam, the total time the facial detetion was sucessful, the total time the student was facing the webcam, and the total time of flagged events.

c. This area shows the video broken down into smaller segments. You can click on the thumbnails to view each segment.

d. This is where the video plays. You can click on the play button to view the whole video or click on one of the segments in area C to view a specific part of the video.

e. Right under the video the instructor can add notes and check off that they reviewed the video.

f. Below instructor notes is where you can see information about the flagged segments.

For more information on flagged warnings and tips to give students for producing a successful recording, go to the following tutorial:
